Lease2Grow

Prepare for your financing conversation

You choose the equipment with your supplier. Lee and the Lease2Grow team help you explore how to finance it. Use this checklist to organize the details you already have.

Your quote or estimated purchase

- ☐ Equipment description; make, model and year, if known.
- ☐ Supplier name, itemized price and new or used condition.
- ☐ Delivery, installation and other project costs, where available.

Your financing context

- ☐ Business name, location and whether it is established or starting up.
- ☐ Estimated project cost, timing and available upfront contribution.
- ☐ A payment range to discuss and any seasonal cash-flow needs.

Questions for Lee and the financing team

- ☐ Which financing structures could fit this request?
- ☐ What are the payments, term, total cost and end-of-term conditions?
- ☐ Which documents and lender conditions would apply?

Before you commit

- ☐ Have the financing team explain the proposed offer and conditions.
- ☐ Confirm delivery, acceptance and funding steps with the supplier.
- ☐ Ask for a secure way to send financial or identity documents.

A quote is helpful, but you can start with an estimated cost and timing. Requirements vary by lender and request. This checklist is preparation guidance, not an approval or a guarantee of terms.
